Junho Kim | 김준호

Undergraduate Student, Data Science Major

School of Information Convergence, Kwangwoon University

nexta1023@gmail.com | github.com/junnokimm | Seoul, Republic of Korea

RESEARCH SUMMARY

Undergraduate researcher in Data Science with experience in field-based usability evaluation, user behavior analysis, Human-Robot Interaction, and UX system development. My research interests focus on understanding and improving user interaction with intelligent systems, particularly in mobility, assistive technology, and Human-AI Interaction contexts.

EDUCATION

Kwangwoon University — **Mar. 2021 – Present**
School of Information Convergence, Data Science Major, B.S. Candidate — Seoul, Republic of Korea

RESEARCH INTERESTS

- Human-Computer Interaction
- Mobility UX and In-Vehicle HMI
- UX Research and Usability Evaluation
- User Behavior Analysis and Data-driven UX Evaluation
- Human-AI Interaction and Human-Robot Interaction

CONFERENCE PAPERS

- **Kim, J.**, Choi, M., Ha, M., & Park, K. **"Web SDK and Analytics Dashboard System for Supporting UX Improvement in E-commerce Environments Based on User Behavior Data."** *2026 Summer Conference of the Digital Contents Society*, 2026.

CONFERENCE PRESENTATIONS & ABSTRACTS

- Park, K., Min, H., Lee, C., & **Kim, J. "A Case Study on Field Deployment of Guide Robot Services in Public Exhibition Spaces."** *Ergonomics Society of Korea Spring Conference*, 2026. Poster.
- Lee, C., Min, H., Kang, M., **Kim, J.**, Jung, G. W., & Park, K. **"Usability and User Experience Evaluation of a Parkinson's Disease Self-Management App: A Study with Older Adults."** *Korea Rehabilitation Welfare Engineering Society Spring Symposium*, 2026. Poster.
- Kang, M., Min, H., Lee, C., **Kim, J.**, & Park, K. **"Older Adults' Perception and Trust Calibration toward AI-Generated Videos: An Interview-Based Exploratory Study."** *Ergonomics Society of Korea Spring Conference*, 2026. Poster.
- **Kim, J.**, Choi, M., Ha, M., & Park, K. **"Analysis of Feature Combinations and Clustering Methods for E-commerce User Profiling Using LLM-based Synthetic Behavioral Sessions."** *Summer Conference of the Korean Data Mining Society*, 2026. Poster.
- Lee, J., Bae, J., **Kim, J.**, Lee, C., & Park, K. **"Stakeholder Attribute Representation and Language Model Dependency in Synthetic Persona-based Policy Simulation."** *Summer Conference of the Korean Data Mining Society*, 2026. Poster.
- **Kim, J.**, Bae, J., Lee, J., Lee, C., & Park, K. **"Effects of Question Design and Counterargument Pressure on Policy Response Stability of Synthetic Personas."** *Summer Conference of the Korean Data Mining Society*, 2026. Poster.
- Lee, C., Min, H., **Kim, J.**, et al. **"Usability Evaluation of an AI Voice-Controlled Robot Easel: Focusing on Supporting Art Activities for People with Disabilities."** *Ergonomics Society of Korea Fall Conference*, 2026. Forthcoming.

RESEARCH EXPERIENCE

Undergraduate Researcher — **Feb. 2026 – Present**
Kwangwoon University IDEA Lab — Seoul, Republic of Korea

- Conduct HCI/UX research on field-based usability evaluation, Human-Robot Interaction, Human-AI Interaction, and assistive technology.
- Conduct and support user interviews, stakeholder interviews, field observations, SUS/NPS-based evaluations, survey design, and qualitative data analysis.
- Design experiments for evaluating response stability, profile alignment, and framing sensitivity in LLM-based synthetic persona agents.
- Develop a CARLA-based driving simulation environment for HCI/UX experiments in automated driving and in-vehicle HMI contexts.

SELECTED RESEARCH PROJECTS

UX Observability SDK & A/B Test Dashboard **2026**
Capstone Design Project / Team Lead

- Led the design and development of a Web SDK and analytics dashboard for collecting and analyzing user behavior events in e-commerce environments.
- Implemented session-based UX pattern analysis and a real-time data pipeline using an Event Collection API, Kafka, Redis, and a Dashboard API.
- Designed dashboard features that connect behavioral data with UX insights, funnel analysis, A/B test results, and experiment management.

Robot Easel Field Usability Evaluation **2026**
Field-based Usability Evaluation / IDEA Lab

- Supported a field-based usability evaluation of a robot easel system in special education and assistive technology settings.
- Conducted and supported field observations, teacher interviews, stakeholder interviews, and SUS-based usability evaluation at Korea Woojin School and Yongsan Center for Independent Living.
- Identified usability issues related to controller intuitiveness, wheelchair compatibility, canvas fixation, device stability, mobility, and maintenance.

TEMI Guide Robot Field Deployment & UX Evaluation **2026**
Human-Robot Interaction Field Study

- Participated in a field deployment study of a TEMI guide robot in a public exhibition space.
- Evaluated user experience using SUS, NPS, behavioral observation, interaction logs, and post-use interviews.
- Analyzed how function type, error tolerance, co-presence, and system transparency influenced user experience in a real public environment.

LLM-based Synthetic Persona Agent Evaluation **2026**
Human-AI Interaction Research / IDEA Lab / Team Lead

- Design and conduct experiments to evaluate whether LLM-based synthetic persona agents consistently reflect assigned user characteristics across repeated responses.
- Compare response stability, profile alignment, and sensitivity to paraphrasing, framing, and counterargument pressure under independent and continuous interaction conditions.
- Develop a modular experimental pipeline for persona sampling, response generation, LLM-based evaluation, and structured result collection using large-scale Korean synthetic population data.

AWARDS AND HONORS

- **Bronze Award, Undergraduate Paper Competition**, 2026 Summer Conference of the Digital Contents Society, for "*Web SDK and Analytics Dashboard System for Supporting UX Improvement in E-commerce Environments Based on User Behavior Data,*" Jul. 2026.
- **Bima Scholarship for Academic Excellence**, Kwangwoon University, Feb. 2022.

CERTIFICATIONS AND TRAINING

- **SQL Developer (SQLD)**, Korea Data Agency, 2025.
- **JavaScript Full-Stack Developer Training Course**, Korea IT Academy, Jan. 2025 – Jul. 2025.

LANGUAGE PROFICIENCY

- Korean: Native
- English: OPIc IH (Intermediate High), 2026

SKILLS

Research Methods
User Interviews, Stakeholder Interviews, Field Observation, Usability Testing, SUS, NPS, Survey Design, Experimental Design, Qualitative Analysis, and User Behavior Analysis

Programming & Data Analysis
Python, JavaScript, TypeScript, React, Node.js, Pandas, NumPy, OpenCV, SQL, and Tableau

Systems & Infrastructure
Kafka, Redis, REST APIs, MongoDB, MySQL, AWS EC2, Git, and GitHub

Design & Prototyping
Figma, User-centered Design, A/B Testing, and Research Documentation
